

## **FDS**

We are a service provider for the North American Foundation / Drilling industry. We rent and sell tools, casings, we provide maintenance and technical advice. Recently we have started to include drilling rigs from Liebherr to rental fleet. We are looking for a hands-on technician/mechanic/ field technician who wants to grow with the company. At FDS we are committed on providing an exceptional and responsible service for our clients. The position is based close to Toronto, Canada.

### **Your tasks:**

- Inspect our machines, conduct on-hire and off hire reports
- Execute repair and maintenance where necessary in the field
- Provide technical assistance in person or by phone
- determine spare parts needs and suggest spare part packages for stock keeping to the regional managers

### **Your profile:**

- High school diploma or degree in a mechanical, hydraulic or electrical machinery related field or similar education
- 2 years of training and/or experience as Technician, Mechanic, Electrician or similar position, experience in field repair and troubleshooting desired
- Able to effectively communicate verbally and in written English
- Willingness to travel within Canada, USA and Europe
- Must have a valid passport and driver's license

### **We offer you:**

- Relocation package
- Support for workpermit
- Attractive package
- Opportunity to grow you career with the company
- Training on the job in Europe and with the manufacturer
